

sly

**“Senza la **geometria**  
la vita non ha punti  
di riferimento.”**

Without geometry life has  
no points of reference.

Sly nasce dall'esigenza di creare modelli unici,  
con linee dinamiche e innovative.

Sly mescola l'arte e la creatività con la tecnica e la  
funzionalità. Non è solo progettazione, ma anche un  
lavoro intellettuale volto a migliorare  
la vita delle persone.

Sly was born from the need to create unique models,  
with dynamic and innovative lines. Sly mixes art and  
creativity with technique and functionality. It is not just design,  
but also intellectual work which aims to improve people's life

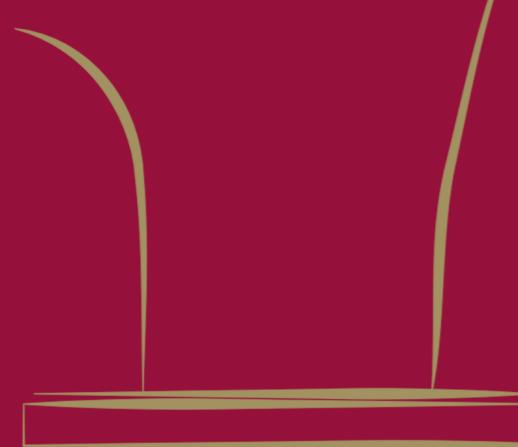

**sly**

A stylized, hand-drawn style red outline of a hand. The fingers are slightly curved, and the thumb is pointing towards the bottom right. A white, ribbed, cylindrical object, resembling a glove or a pen, is held in the hand. The outline is composed of thick, wavy lines.

DESIGNER

**OLEG  
BILOKON**

**OLEG BILOKON**

Laureato nel 2020 in Design & Engineering al Politecnico di Milano.

E' sempre stato appassionato del design. La sua missione è raggiungere la semplicità in ogni prodotto scegliendo la geometria più elegante e eliminando la ridondanza.

**OLEG BILOKON**  
Graduated in 2020 in Design & Engineering  
at the Politecnico di Milano.

I've always been passionate about design. My personal mission is to achieve simplicity in each product by choosing the most elegant geometry and eliminating redundancy.
